

Use and Impact of Sports Funding Money 2017-18

Schools are allocated a sum of money, called the Primary PE and Sports Funding to support all children and improve the quality, quantity and breadth of PE and sports provision. The allocation is calculated according to the intake of the school, and the school must decide how best to use them to improve the breadth and quality of PE and sports provision, including increased participation in PE and sport so that all pupils develop healthy lifestyles and reach the performance levels they are capable of.

Our school vision for sport and healthy lifestyles at Skerton St Luke's CE School will support excellence in PE through developing children's physical skills, promoting a healthy active lifestyle, providing the opportunities to engage in competitive activities, whilst promoting teamwork and a sense of fair play, and developing the enjoyment of physical activity through a creative and high quality curriculum and extra-curricular opportunities.

We have 4 main aims:

- To develop teacher's confidence through the teaching of physical skills required for a range of activities and sports
- To promote the importance of leading a physically active and healthy lifestyle
- To encourage competitive sports, whilst teaching a sense of teamwork, respect and fair play
- To provide regular opportunities for children to take part in a wide range of physical activities as a part of the curriculum and through extracurricular activities.
